

# Fun Craft & Addition

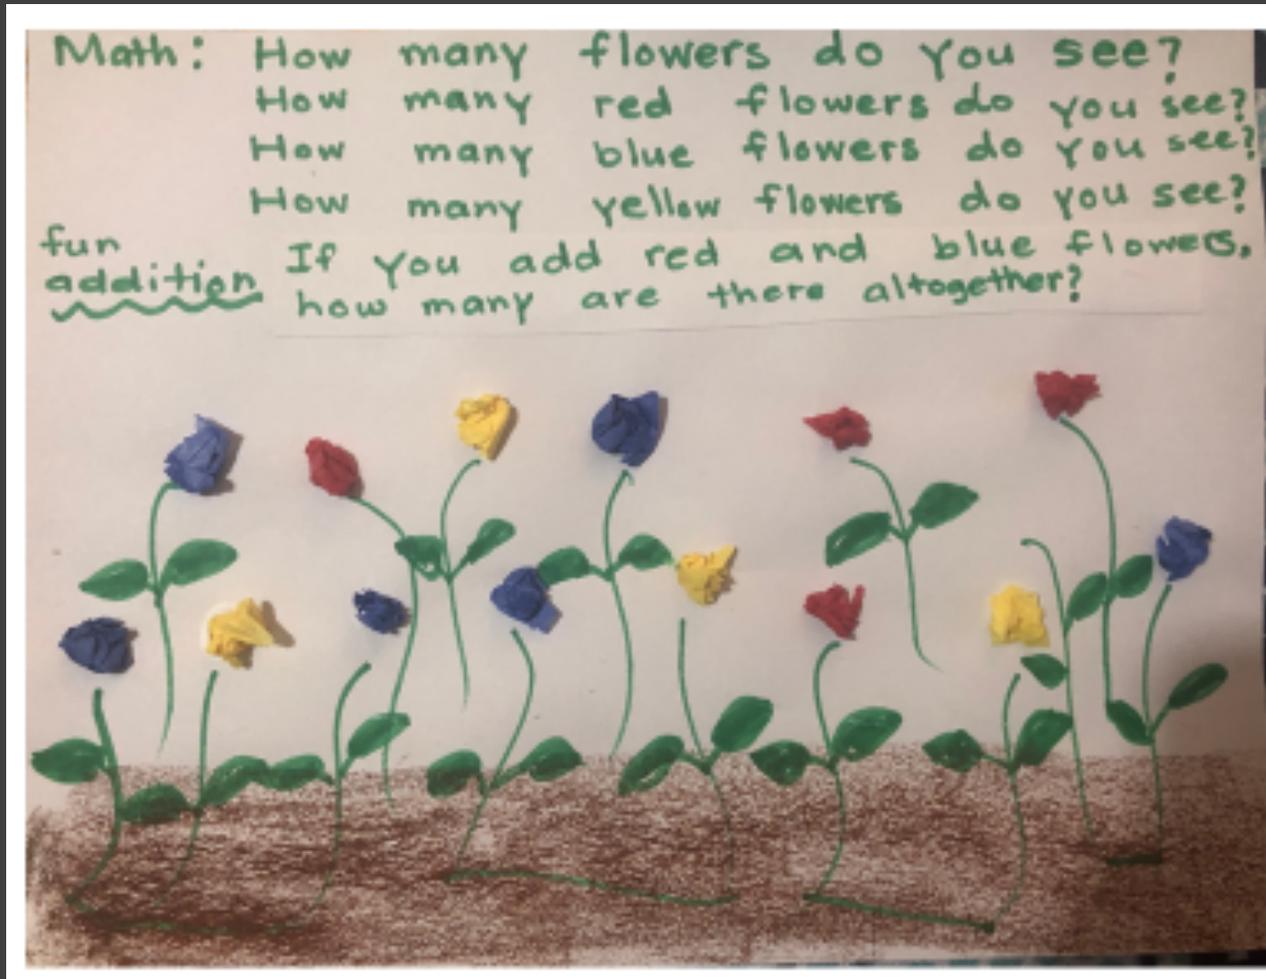

Mrs. Gupta  
SST-NW  
Summer 2020

# Materials:

- Tissue paper ( to make flowers)
- Sequins
- Glue
- White Drawing Sheet
- Pencil/marker

# Procedure

- Children will choose three different colors of tissue paper to make flowers.
- Children will use glue to stick the flowers on the white paper.
- They will be encouraged to draw the stem and the leaves.
- Children will be encouraged to answer the math questions mentioned in the worksheet.
- If children want, they can add details to the picture (coloring the soil and the sky).

# Procedure

- Children will be provided the materials: white drawing sheet, sequins, markers.
- An adult will create the worksheet.
- Children will look at the number and add the sequins in the cloud. They will show the number using tally mark.
- Children will add the number by counting the sequins and/or using the number line (an adult will create the number line).
